

# FREMONT COMMONS SHOPPING CENTER Fremont, CA

The 18,500 S.F. Fremont Commons Retail Shopping Center was designed on a very visible and accessible retail site in a downtown central district according to the City's prompt for an urban solution. We accommodated the City's desire to place the buildings on the streets, maintaining an "urban texture." A steel colonnade along the street maintains the continuity of hard materials and continuous glass give maximum retail exposure.

**PROJECT TYPE** RETAIL  
**AREA** 18,500 S.F.
