

ROSSMOOR GATEWAY COMMUNITY Walnut Creek, Ca

To design the Rossmoor Retirement Community of 9,500 residents, the 1960's Complex was reconstructed. The reconstruction included the administration building, clubhouse, social center building and a new multi-purpose theater building. To accommodate a modern use of facilities, a library, card room, social lounge, computer training room, administrative offices, clubhouse and theater were built. The design process incorporated feedback from user groups and agencies to complete this 5-acre design.
