

# SANTA RITA SQUARE Pleasanton, CA

The new 60,000 S.F. Santa Rita Square retail project was designed adjacent to an old shopping center, incorporating materials from the neighboring property and transforming them into a modern image. Colored mosaic tiles sit atop a stucco base for retail and restaurant tenants. We designed the Square to be developed in two phases.

**PROJECT TYPE** RETAIL  
**AREA** 60,000 S.F.
