

STARBUCKS COFFEE Various Locations

Architectural Dimensions designed multiple Starbucks in California to meet the growing market for this popular brand and attract new customer base to existing retail centers. Projects ranged from renovation/expansion to ground-up design with drive-thrus and outdoor patio dining areas included when possible to enhance the overall experience.

PROJECT TYPE:
RESTAURANT, TENANT
IMPROVEMENT

AD managed the fees/permit process and agency coordination to get the projects built on schedule and within budget, while meeting the challenging limitations from city and state.
