

SOCIAL TAP AMERICAN EATERY San Diego, CA

Where vintage meets culinary explosion! This place rocks it out of the park – literally. Social Tap American Eatery is a 6,000 square foot new dining experience on PetCo Park-in-the-Park, housed in the historic Schiefer building. The historic windows were dismantled and re-attached to a custom metal frame allowing them to awning up creating an open air experience for the patrons. When the windows are closed you cannot tell they were ever modified, keeping their historic integrity.

The interior utilized old brick, acid washed panels, iron strapping, and subway tile to accent and pay homage to the historic building. Both custom light fixtures and custom social tables with rotating seats give the place even more of that rustic feel. The LED under-lit translucent bar top is another stunning detail. All in all a great addition to downtown that is family and dog friendly. A must go!
